

Stirling

This contemporary yet simple signage system is part of the Stirling family, see page 114 - 115 for further details. The Stirling is available with three different size finger arms for varied applications, its diversity making this product invaluable as part of any modern street scene

Post

Materials

Galvanised steel post (ø60mm shaft / ø90mm base) with a cast aluminium finial. The post is supplied with a 600mm long root and is finished in primer as standard

Options

May be painted any standard RAL colour
 Can be supplied with a flange plate for bolting to the ground
 Available at 2.66m or 3.40m high

Installation

To be planted in the ground
 Supplied with the finger arms separate from the post

Weight

2.66m high: 30kg
 3.4m high: 38kg

Finger Arms

Materials

Cast and extruded aluminium. Lettering supplied as Info Text-Medium 130pt mixed upper/lower case as standard

The signs may have either single-sided or double-sided lettering

Short (460mm) finger arms can take up to 18 characters per row

Long (610mm) finger arms can take up to 25 characters per row

Pictograms may be added to the signs

The finger arms are supplied in widths of 175mm, 270mm or 365mm to accommodate single, double or triple lines of text

The finger arms are supplied in RAL 5019 Capri Blue as standard with the upper and lower edges self coloured aluminium

Options

May be painted any standard RAL colour
 Lettering in alternative fonts and colours can be used on request

Installation

The sign sleeve is secured to the post with grub screws
