

## Smart | BS-C

### Smart

#### Materials

50mm diameter extruded aluminium posts with stainless steel flange plates and fittings

With oval (60mm x 40mm max) extruded aluminium handrail with stainless steel end caps and fixings. The handrail is adjustable for angle and can therefore be used on gradients and stairs. The adjustable fittings on the posts allow a number of different infill types to be used from solid panels or tensioned wires to printed fabric or perforated metal

#### Options

Can be supplied with a root for planting in the ground or with vertical mounting plates where fixing to the side of a wall is required

#### Installation

To be bolted to the ground

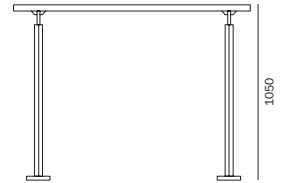

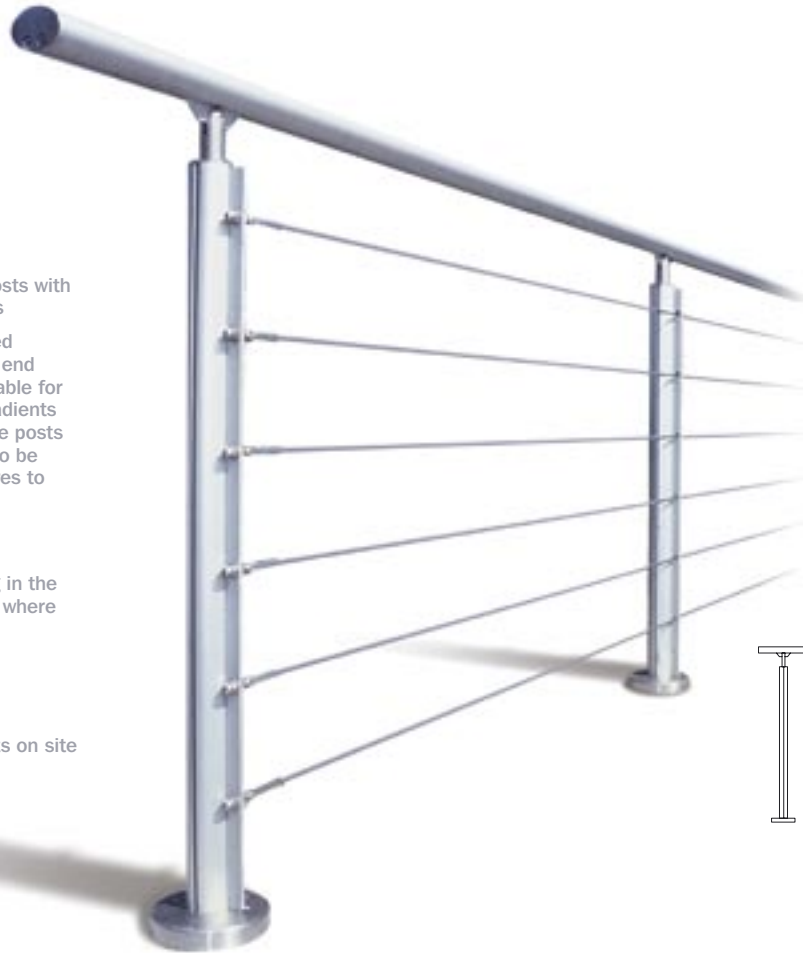

Rails are to be assembled into the posts on site

#### Weight

Post: 5kg

#### Product Codes

See page 130 for Product Codes

### BS-C (BS-Compliant products)

For those customers looking for something distinctive and unique whilst still meeting the stringent requirements of the British Standards, we are able to supply custom fencing to BS 1722 and guard rails to BS 7818

The design shown here is an example of what can be achieved. For further details please contact our Customer Services team on 01992 474600

#### Materials

Galvanised steel

#### Options

May be primed or painted any standard RAL colour
